

SANITATION-

Garbage Cans & Recycle Totes – If your garbage can or recycle box is missing from yesterday's high winds we ask that you please look for your can BEFORE calling in. Many cans traveled quite a distance yesterday, so you may have to search down to the end of your street or further.

Please allow up to a week for a can to be placed at your property if yours went missing yesterday and you have to contact Public Works at 541-938-8270, 8272 or 8274 for a new one.

STREETS -

Street Signs – The wind caused damage to many signs and occasionally they are positioned incorrectly after such high winds. If you notice a missing sign, a sign barely hanging on the post or street signs that are incorrectly positioned please let the Public Works Department know by calling 938-8270, 8272, or 8274.

Tree Branches – city staff is currently working to clear streets and sidewalks of fallen trees and debris. If you have branches you can do the following through next Tuesday 12/16/15:

1. Take your brush (brush only – no treated or painted wood, shingles or other debris allowed) to the drop off location at the city fire training facility adjacent to the Sewer Treatment Plant at 640 County Road between 7 a.m. and 3:30 p.m.
2. If you do not have means to haul your branches please pile branches nicely along curb out of the street in front of your house. If branches are not gone by Tuesday 12/16 – call Public Works – 938-8270, 8272 or 8274.

We ask that you take the tree debris to the collection site, where it will NOT be put in the landfill.

Please do not put materials in your garbage can unless you are able to cut them to where they do not stick up above the lid when in closed position. We also ask that you not pack them in your can. Chances are if you had to cram them in – they won't come out when the can is dumped.

If you plan to burn the debris on your property please call the Police Department for a burn permit at 541-938-5511 before doing so. BURN BARRELS ARE PROHIBITED AT ALL TIMES WITHIN THE CITY LIMITS.
